

SHISHIR KUMAR LAAD

Project Manager | Scrum Master | IIM Kashipur

Result-driven Project Manager with 15+ years leading cross-functional teams across fin-tech, healthcare, e-governance, and SaaS ecosystems. Combines strong QA/engineering foundations with Agile delivery leadership.

Location Preference: **Remote / Anywhere in India and Abroad**

Phone: 09827383838 | Email: shishirlaad@gmail.com | LinkedIn: linkedin.com/in/77779999nlaad | Online portfolio: <https://shishir-laad.vercel.app/>

PROFESSIONAL SUMMARY

- Certified Project Manager (IIM Kashipur) & Scrum Master (CSM) delivering enterprise software solutions across FinTech, Healthcare, E-Governance, and SaaS ecosystems in Agile, Waterfall, and Hybrid setups.
- Founded and scaled an organization-wide AI practice from the ground up — grew a 4-member pilot team to 30+ engineers, defining AI strategy, tooling, and standardized AI/vibe-coding development processes now used org-wide.
- Experienced in Program Governance, Stakeholder Alignment, and Delivery Excellence, ensuring measurable outcomes, on-time execution, and PMO compliance.
- Skilled in Agile Governance Frameworks, Sprint Velocity Tracking, and KPI-driven performance dashboards for multi-team programs.
- Adept at Business Analysis and Product Ownership — gathering and refining requirements, defining epics and user stories, managing product backlogs, and preparing BRD, FRD, and process flow documentation with supporting wireframes and prototypes.
- Strong technical foundation in QA (Functional, API, DB, Automation) gives an edge in risk detection and release quality that most PMs lack.
- Track record of building delivery processes and governance frameworks across 6+ organizations, from startups to enterprise clients.
- Experience managing distributed teams and international stakeholders across New Zealand, USA, South Africa, and UK engagements.
- Led Agile Transformation and Digital Transformation initiatives, facilitating client workshops and mentoring cross-functional teams to build high-performing, scalable delivery practices.

KEY IMPACT AREAS

Project Management | Business Analysis | Delivery Management | Client Engagement & Management | Software Testing | Quality Assurance | Risk Detection & Mitigation | Defect Management | AI Strategy & Team Building

PROFESSIONAL EXPERIENCE

Mar'25 – Present HiddenBrains Infotech, India — Project Manager

- Manage cross-functional project delivery across a distributed team of 45 members spanning multiple concurrent projects.
- Lead and coordinate Business Analyst teams across 5+ concurrent projects.
- Founded and scaled HiddenBrains' AI practice from the ground up — grew the AI team from 4 members to 30+ engineers, owning recruitment, onboarding, and hands-on training.
- Researched and defined organizational AI strategy and tooling; established standardized development processes for AI-assisted/vibe coding, driving adoption among 40+ developers.
- Built custom GPTs adopted by development teams, reducing documentation and requirement turnaround time by ~20-30%.

Jun'24 – Feb'25 Eclat Infotech, India — Project Manager (2nd tenure)

- Lead cross-functional support and delivery team of 25 members, managing sprint planning and QA strategy via JIRA/Confluence.

- Coordinating cross-functional teams for different projects, streamlining handoffs between QA sign-off and production release.
- Direct QA planning for sprint and regression cycles.

Dec'23 – May'24 MPSEDC, Bhopal — Project Manager

- Led multiple project teams (BA, developers, QA) across government e-governance initiatives, coordinating with 3+ government departments as stakeholders.
- Owned requirement gathering, proposal creation, planning, and estimation for government IT projects.
- Managed releases and environments; ran client/team demos.

Mar'22 – Nov'23 Streamline Business Group, New Zealand — Project Manager / Scrum Master

- Led the India development team for the product, coordinating international stakeholders across engineering and business functions.
- Shaped product roadmap and backlog (epics/stories) using market research, competitor analysis, and sales/prospect input.
- Introduced Java-Selenium regression automation, reducing manual QA effort for release cycles.
- Implemented ABBYY Vantage (AI-based OCR) to automate invoice processing; certified ABBYY Skill Developer.
- Gained in-depth exposure to Xero and MYOB accounting systems and bookkeeping workflows to support fin-tech product decisions.

Dec'20 – Mar'22 Eclat Infotech, India — Project Manager (1st tenure)

- Led cross-functional Scrum teams of 74 members executing requirements groomed by Product Owners.
- Facilitated Agile ceremonies — sprint planning, retros, and stakeholder demos.
- Directed QA planning for sprint and regression testing; coordinated releases with DevOps.

Oct'19 – Nov'20 HyperBeans, India — Project Manager

- Led a team of 4 business analysts and 55 developers across full project lifecycle management for all active floor projects.
- Served as primary client contact post-sale — owned requirements gathering, documentation, execution planning, and QA strategy.
- Supported business development team with technical input during client pitches.
- Established and maintained delivery processes across teams.

Nov'16 – Sept'19 Kavya Softech Pvt. Ltd., Indore, India — Project Manager

Jan'16 – Oct'16 Systango, India — Sr. Business Analyst

May'12 – Jan'16 Vinfotech Ltd, India — Sr. Quality Analyst

Jan'12 – May'12 InsideUp INC, India — QA Engineer

Jun'10 – Jan'12 Synsoft Global, India — QA Engineer (VoIP / Protocol Testing)

IT SKILLS

- **AI:** AI Strategy & Roadmap Development, AI Team Building & Recruitment, AI/Vibe Coding Practices & Standards, Custom GPT Development, Prompt Engineering, ABBYY Vantage (AI-based OCR), AI-Assisted Development Adoption, AI Team Training & Mentoring
- **Project Management:** Program Management, Agile/Scrum, Sprint planning, Release management, Risk management, Requirements gathering (SOW/SRS), Stakeholder management
- **Roles Held:** Project Manager, Program Manager, Product Owner, Team Lead, Project Lead, Project Coordinator, Scrum Master
- **Methodologies:** Scrum, Kanban, Waterfall, Hybrid
- **Documentation:** BRD, FRD, SRS, SOW, Epics, User Stories, Business Proposals, Process Flow Documentation
- **Tools:** JIRA, Confluence, Trello, Basecamp, Redmine, Zoho Projects, Postman, Fiddler, MS Excel

- **Wireframing Tools:** Axure, Figma, Basecamp
- **QA & Automation:** Functional, API, DB, UI, Data, and Web Services Testing, Regression Testing, Selenium, STLC/SDLC, Bug tracking (Bugzilla, Fogbugz, Mantis)
- **Release & Deployment:** CI/CD coordination, version control, regression verification
- **Payment Gateways:** Stripe (including Stripe Clock testing)
- **Reporting & Analytics:** Sprint velocity tracking, Burn-down & Burn-up charts, Velocity benchmarking, Gantt charts, KPI tracking, Sprint demos & retros, Client communication, Presentation
- **Technologies delivered:** Java, PHP (CI, Laravel), React / React Native, Mobile Applications (Native iOS & Android)
- **Domains:** Fin-tech, Healthcare, E-commerce, Social Networking, E-governance, Insurance, Startups & Enterprise
- **Compliance & Standards:** HIPAA, GDPR
- **Other Competencies:** Agile Transformation, Digital Transformation, Risk & Compliance, Budget Control, Process Automation

AI & AUTOMATION

Built and deployed a suite of custom GPTs to streamline project management, requirements, and delivery workflows:

- **Meeting Minutes Specialist** — auto-generates structured MOM from meeting transcripts/notes
- **Multi-Agent Prompt Creator** — designs structured multi-agent prompt workflows for complex AI-assisted tasks
- **Document Formatter** — standardizes and formats project documentation
- **FRD to MD File Generator (Development)** — converts functional requirement docs into developer-ready markdown files
- **Figma to MD File Generator** — converts Figma design files into structured markdown documentation
- **FRD Creator (Vibe Coding)** — generates functional requirement docs optimized for AI-assisted/vibe coding workflows
- **Scope & Proposal Creator** — generates client-facing scope documents and proposals

EDUCATION & CREDENTIALS

- Bachelor of Engineering, Electronics and Communication — R.G.P.V. University, 2009
- Certified Project Management — IIM Kashipur
- Certified Scrum Master (CSM)
- Certified Quality Analyst — Seed InfoTech

PROJECTS MANAGED

- **Acume (New Zealand)** — Fin-tech AR/AP automation | PHP, Vue.js | Team of 8
- **Thread Research (USA)** — Healthcare | Java, Native iOS/Android | Team of 74 | HIPAA & GDPR compliant
- **Kikalma (South Africa)** — E-commerce | Open source | Team of 12
- **Tank Terminal Data Intelligence Platform** — Vessel waiting-time analytics using AIS data | PostgreSQL/PostGIS, PHP 8, Python
- **Upstream CFD Platform** — Cloud-based CFD simulation & data analysis platform | React.js, Node.js, Python (Flask), AWS S3
- **Haidlmair Engineering Data Platform** — Secure engineering file management for global mould & tooling firm | Python, Docker, Azure Cloud
- **Saxon Insurance Risk & Portfolio Platform** — Automated underwriting & risk analytics for high-value asset insurance (UK) | PHP (Laravel), React.js, AWS — reduced manual processing time by 40%, improved policy turnaround by 25%
- **Celedom Marketplace Platform** — Events marketplace with social feed, booking & payments | PHP (Laravel), React.js, Stripe API

ADDITIONAL PROJECTS (EARLY CAREER)

- **DMRC** — E-governance project for Delhi Metro Rail Corporation.

- **Brilliant Menu** — Restaurant management platform with web, iPad, and iPhone apps; tested end-to-end across all platforms.
- **Ottofleet** — Vehicle tracking system with real-time location, speed alerts, and trip history for transport management.
